

Pet Packing Checklist

-  **Shot Records** (contact your boarding facility for their list of required vaccinations)
-  **Pet Food** (Same food your pet is currently eating is best)
-  **Pre-portioned in bags or Scoop or Cup** (pre-portioned bags is greatly appreciated by your pet care provider to keep feeding consistent or whatever you use to portion your pet's food for feeding at home)
-  **Medication**
-  **Measuring Tools** needed to administer medication
-  **Comfort Item** (Something that smells like home that you do not mind getting soiled or chewed like a shirt or favorite toy)

Although we may over pack for ourselves when traveling, please try bringing only the things your pet needs during their stay. This makes keeping up with your belongings much easier when there is a high volume of boarders. It is also appreciated if you do not bring items that you do not mind getting chewed or dirty.
